On February 25, 2021 the Craig Emergency Operations Center was notified of one new COVID-19 case in Craig. The case is not a Craig resident but is currently in Craig.

This case brings the total positive cases for Craig to twelve positive cases since April. The last reported case in Craig was a resident case reported on February 5, 2020.

It is critical that everyone does their part to reduce the spread of COVID-19 by frequently washing your hands/using hand sanitizer, wearing a mask or cloth face covering when in public, limiting interaction between members of households, maintaining good social distances with people from other households, and staying home from work or school if you are experiencing any symptoms or have been exposed to someone who has tested positive for COVID-19. If you are travelling, especially over the holidays, please take additional safety measures and consider limiting your exposure to other people for 7 – 14 days after you return from your travels.
